

drunkard, and shall be removed like a cottage; and the transgression thereof shall be heavy upon it, *and it shall fall, and not rise again.*" If the earth falls, which way will it go, up or down? Tell me, ye wise men, ye philosophers. Will not the greatest and most powerful planet attract it whether it goes up or down? For the greater bodies attract the lesser. If the earth falls, and is not to rise again, it will be removed out of its present orbit. Where will it go to? God says He will gather all things into one; then He will gather the earth likewise, and all that is in it, in one. The gathering will be upon a larger scale in time to come; for by and by the stars of Heaven will fall. Which way will they go? They will rally to a grand center, and there will be one grand constellation of worlds. I pray that we may be there, and shine among those millions of worlds that will be stars in the Almighty's crown.

The earth will have to be removed from its place, and reel to and fro like a drunkard. The fact is, it has got to leave the old track in which it has roamed in time passed, and beat a new track; and saith the Lord, "come up here." What is He going to do with it? Why, take it where the sun will shine upon it continually, and there shall be no more night there; and the hand of God will wipe away the tears from all faces. "Come up here, O earth! For I want the Saints who have passed through much tribulation to be glorified with you, and then I will give the earth to the meek. For I will take the curse from it, and rebuke the destroyer for your sakes, and bring all things in subjection to you, and you shall dwell in everlasting light." Now it is half day and half night, but I tell you it is not going to be half and half, but there will be no night there. We have but one sun to shine upon us, but

when the earth is taken out of this orbit, it will come in contact with the rays of other suns that illuminate other spheres; their rays will dazzle our earth, and make the glory of God rest upon it, so that there will be no more night there.

Is it possible, then, that there are worlds reserved in eternal night, in an eternal eclipse, rolling in the shade? What is their use? They are the homes of them that love darkness rather than light; and it shall be said unto them, Depart, ye cursed, into outer darkness. There are planets that revolve in eternal darkness, that you who love darkness rather than light may go and find your own home. There is a place prepared for everybody, no matter what their character. Says the Savior, "I go to prepare a place for you." There is a place for every person. There is a place for everybody that comes into this Valley, if they can only find it. So there is a place in yonder world for every person; but to him that overcometh will I give power over the nations, and he shall be a pillar in the Temple of my God, and go no more out.

If there is anything in this world my soul desires the most, it is that I may overcome, and be made a pillar in the Temple of my God, and remain at home in the society that is continually warming my spirit, encouraging my feeling, with that which is congenial with every principle of my nature; let me bask in their goodly presence, live in their affections, dwell forever in the midst of their society, and go no more out. And may God in His mercy help us all to overcome every obstacle, and endure hardships like good soldiers of the Lamb, and dwell eternally in the mansions of light; which may God grant for Christ's sake. AMEN.
