

have left Babylon, and instead of introducing it here we want it to stay yonder, and just as much as we can, no, that is the wrong word—just as much as we *will*, we want to make our own head dresses here, especially for the ladies, and for the gentlemen through the summer season. We would like to see all through our country what we see here in a measure—a decent dress on a lady. Instead of having four, five or six yards of cloth drawing through the street to raise dust on the people, that she can go along decently and you would not think there was a six horse team traveling there, with a dozen dogs under the wagon. This is what we would like, but when we come to the ornaments, I feel like blackguarding. I am going to speak about a little ornament they get up, I believe it is called a "bender," and I do not know but there is a Grecian or a Greek to it—a "Grecian bend." You have seen this ridiculed enough without my doing it. I want to say to you, ladies, just take off this ornament. If my sisters will take the hint, they will leave off these little articles. Some of them, after they have got half a dozen yards on it are not satisfied until they go and get a dozen yards of ribbon several inches wide to make bows to put on the top of that. It is ridiculous! I do not see much of it in this place, to what I do in some others. I would really like to see the ladies dress decent and comely. This will do on this subject, for a hint to the wise is sufficient, and enough has been said if the sisters will take counsel.

I will now say a little with regard to our young people—a subject introduced here yesterday, very modestly and very nicely. Suppose the Latter-day Saints and the world at large were to carry out the principles that are received in the faith of a

society called the Shaking Quakers, how long do you suppose it would be before there would not be a human being left on the earth, unless there was some necromancy or stealthful conduct going on? About one hundred and twenty years would take the last man and woman from the earth. But this is not what is required of us, it was not required of Adam and Eve. They were required to multiply and replenish the earth, and I will here say a word to the ladies—Do not marvel, do not wonder at it, do not complain at Providence, do not find fault with mother Eve because your desire is to your husbands. Bear this with patience and fortitude! Be reconciled to it, meet your afflictions and these little—well, we might say, not very trifling, but still they are wants, for if we desire only that that is necessary, and can govern and control ourselves to be satisfied with that, it is a great deal better than to want a thousand things that are unnecessary, and especially to the female portion of the inhabitants of the earth. But there is a curse upon them, and I cannot take it off, can you? No, you cannot—it never will be taken from the human family until the mission is fulfilled, and our Master and our Lord is perfectly satisfied with our work. It will then be taken from this portion of the community, and will afflict them no more; but for the present it will afflict them. And almost every lady I ever saw in my life is just as bad as a certain lady lecturer who, after lecturing and extolling her sex, and trying to impress upon them the idea that it would have been much better for the world if there had never been a man upon the earth, said, "Yet you know our weakness is such that we turn round and grab the first man we come to." How natural it is!
