LIVE—SUNDAY SCHOOLS, RELIEF AND MUTUAL
IMPROVEMENT ASSOCIATIONS.**

DISCOURSE BY PRESIDENT JOHN TAYLOR, DELIVERED IN THE TABERNACLE AT PROVO,
NOVEMBER 30, 1879.

REPORTED BY GEO. F. GIBBS.

We have heard a good many great and important truths uttered by those who have addressed us since the commencement of this conference. We have these conferences appointed for the purpose of adjusting and regulating any matters that may arise in the several Stakes, and for teaching and instructing the people on all matters pertaining to their welfare relative to this world as well as the world to come.

My brethren of the Twelve and myself have been traveling around considerably lately among the people. We have visited some of the most prominent Stakes and attended their conferences; among which are the Stakes of Sanpete and Cache Valley—two of the most prominent of the Territory—in which temples are being built. We thought we would like to visit them and see the condition of affairs; how they were progressing, what advancement they were making in these important labors, and then if they needed assistance of any kind we could render intelligently after enquiring into their

position. We found in both of these places that the people had been very faithful, diligent and liberal in the prosecution of this work, that is, in building temples to the name of the Lord, that they may go and administer therein and attend to the ordinances of God's house for themselves, and receive those blessings which God has to confer upon His people, and administer not only for themselves, the living, but also for the dead. We found that a very large amount of means had been used in both of these valleys, including the districts around, appointed to assist them in the erection of these temples, and they are building up splendid edifices in both places. The one in Cache Valley is built of hard rock, a species of marble, that will make a very strong wall. There is, however, mixed up with it in different places, some very fine sandstone, which they have to bring from quite a distance. They have raised the walls of that Temple about fifty-five feet and are still persevering. We found also that they were pro-
